The cleaning system that has revolutionized the way to eliminate everyday household dirt. The set includes a handle, base and a package of dust catching cloths. The cloth has an electrostatic action that attracts dust, hair, crumbs and much more, trapping them in the web of its fibers.

#### Instruction for use:

1. Screw together the four-piece handle and unite the base to the handle.
2. Unfold the cloth and position it at the center of the base.
3. Fold the cloth over the base and insert the corners of the cloth into the openings located on the upper portion of the base.
4. After use, remove the soiled cloth and throw it away.
