

ART. 1405

PROFESSIONAL LINE

WINDOW CLOTH EXTRA-PROFESSIONAL BS070 NI200

MATERIAL

Fabric Composition	100% Viscose
Chemical composition	Latex
Product weight	200 gr/sq mt

PACKAGING

Variable according to request

Available in 160-cm height rolls (or sub-fractions), or cut in sheets. The main characteristic of window cloth extra professional, beside its characteristic pink color, is its particular finishing that makes it remarkably pleasant to the touch. It has a porous surface in latex that guarantees maximum absorbency. Perfect for washing and drying autos, boats, motorcycles, glass, mirrors and all washable household surfaces. Grips the surface efficiently removing even the most resistant grime without leaving lint or streaks. Long lasting. Always dampen before use.
