Set Dust-Catcher: Sweeper & Cloths

The cleaning system that has revolutionized the way to eliminate everyday household dirt. The set includes a handle, base and a package of dust catching cloths. The cloth has an electrostatic action that attracts dust, hair, crumbs and much more, trapping them in the web of its fibers.

Instruction for use:

1. Screw together the four-piece handle and unite the base to the handle.
2. Unfold the cloth and position it at the center of the base.
3. Fold the cloth over the base and insert the corners of the cloth into the openings located on the upper portion of the base.
4. After use, remove the soiled cloth and throw it away.

PACKAGING

Window cloth extra-perforated

Available in 160-cm height rolls (or sub-fractions), or cut in sheets. The window cloth has a porous, extra-perforated surface in latex that guarantees maximum absorbency. Perfect for washing and drying autos, boats, motorcycles, glass, mirrors and all washable household surfaces. Grips the surface efficiently removing even the most resistant grime without leaving lint or streaks. Long lasting. Always dampen before use. Perforation makes the cloth glide easier.

MATERIAL

Fabric Composition	100% Viscose
Chemical composition	Latex
Product weight	250 gr/sq mt*

* (before perforation)
